

C:/Users/PcBox Gaming
/Documents/GitHub/Proyecto
-TTI/include/G_AccelHarmonic.hpp

```
graph BT; A["C:/Users/PcBox Gaming /Documents/GitHub/Proyecto -TTI/src/VarEqn.cpp"] --> C["C:/Users/PcBox Gaming /Documents/GitHub/Proyecto -TTI/include/G_AccelHarmonic.hpp"]; B["C:/Users/PcBox Gaming /Documents/GitHub/Proyecto -TTI/tests/tests.cpp"] --> C;
```

The diagram illustrates a dependency relationship between two source files and a header file. At the top, a grey box contains the header file path: C:/Users/PcBox Gaming /Documents/GitHub/Proyecto -TTI/include/G_AccelHarmonic.hpp. Below it, two white boxes represent source files. The left box contains the path C:/Users/PcBox Gaming /Documents/GitHub/Proyecto -TTI/src/VarEqn.cpp, and the right box contains C:/Users/PcBox Gaming /Documents/GitHub/Proyecto -TTI/tests/tests.cpp. Two blue arrows point from the top-right corner of the left box and the top-left corner of the right box towards the bottom edge of the header file box, indicating that both source files include or depend on the header file.
